

CLINICAL AND OPERATIONS UPDATE

22/07/2020 1900hrs

Colleagues

We have been made aware of a covid19 outbreak at two traveller settlements – Welshpool (SY21 8FJ) and Craven Arms (SY7 8DU), both sites has been asked to self-isolate and essentially classed as two separate households.

It is early days, although please be vigilant as it is believed there was a large gathering in the traveller community on 14th July 2020 which has exacerbated the number of local cases.

The purpose of this email is to increase awareness of circulating covid19 in the local traveller community, all agencies are ensuring testing and engagement is taking place.

As ever, for any advice please contact the team leader.

Please keep this email confidential within the organisation and do not share externally.
